STEP 2 · SIGN IN

FIRST SIGN-IN WITH THE TEMPORARY PASSWORD

A dark-themed modal window titled "Sign in" with a close button (X) in the top right corner. It contains three input fields: the first for a username (containing "midnight_anchor_demo"), the second for a password (displayed as dots), and a large pink button labeled "Enter the Vault". HABITS THAT KEEP YOUR SHOP LOOKING SHARP

POSTING = TWO STOPS

Upload in Customize → Media library, then Studio → New drop. Every time.

DELETE IS INSTANT

Studio's Delete button removes a post straight away. There's no "are you sure?" and no undo.

SHOP FLOOR SCREEN

Lounge → Upload video to screen. Choose how long it stays up: 30 minutes up to no expiry.

CLIENTS NEED AN ACCOUNT

Signed-out visitors can look, but commenting and the Lounge ask them to sign in first.

SUPPORT = THE SITE TEAM

The Support tab is a private chat with the thetattoo.monster team, not a client inbox.

ANALYTICS COUNTS YOU TOO

Your own visits show up. Ours showed 14 visits, all from us setting up the demo.

TROUBLESHOOTING

MESSAGES WE ACTUALLY SAW, AND WHAT TO DO

WHAT YOU SEE	WHAT IT MEANS	WHAT TO DO
"Invalid credentials"	Username or password doesn't match.	Use your username, not your email. Check caps lock.
"Password must be at least 6 characters"	New password too short.	Go longer. A password manager can make one.
"Sign in worked. Change the temporary password before you continue."	Normal on first sign-in.	Set a new password in Account settings.
"Sign in or create an account first"	A signed-out visitor tried the Lounge or Tip.	Nothing is broken. Visitors just need an account.
Broken-image icon in the banner	New shops start with a banner that didn't load.	Upload your own banner (step 5).
Handle shows "@@yourname"	The handle was saved with an @.	Remove the @ in Customize → Handle and save.
Video is a black box on the feed	No preview frame until it plays.	Press play. The video is fine.

Red pills are exact on-screen messages from our demo. The last three are things we saw on the page itself.
